Supplemental Nutrition Assistance Program Manual - Volume V

Transmittal #28

This transmittal contains temporary eligibility provisions and increased benefit amounts for the Supplemental Nutrition Assistance Program (SNAP). These allowances were included as part of the Consolidated Appropriations Act, 2021 signed into law December 27, 2020.

The increased benefits amounts included in this transmittal became effective January 1, 2021 for all certified SNAP cases for January 2021. Student exemption provisions became effective January 16, 2021 for evaluations taken on or after January 16, 2021.

The certification manual and this transmittal are available at <https://snapmanual.dss.virginia.gov/FoodStampManual/mainpage.jsp>.

Changes are noted for the following sections:

---

Chapter	Significant Changes
Part II Pages 19-20	The minimum benefit amount for households with one and two members was increased to \$19.
Part VII Pages 5-10	<p>Student exemptions were revised to allow approval for work study instead of actually participating in work study. A new exemption was added to allow for instances when there is no financial family contribution expected.</p> <p>An exemption for career and technical programs was revised from SNAP Employment and Training placement in school to other programs fulfilling the requirements of the Carl D. Perkins Career and Technical Education Act of 2006.</p>
Part IX Pages 7-8	Pandemic stimulus payments are excluded as a resource for

S. Duke Storen  
Commissioner

Attachment

b. A client applies for SSI on November 10. He does not want to apply for SNAP benefits at that time. On December 3 he changes his mind and files a SNAP application. He would be ineligible for SNAP benefits according to NA standards.

1) Suppose SSI determines the household eligible for a money payment on December 30.

Because the household was determined eligible for SSI within the 30-day SNAP application processing time frame, the household is categorically eligible back to December 3, the date of the SNAP application.

2) Suppose as of January 2, the SSI determination is pending. The agency chooses to deny the SNAP application on the 30th day.

On February 9, the household informs the agency that SSA approved SSI benefits retroactive to November. The agency reinstates the original SNAP application and provides SNAP benefits back to December 3. That date is the later of the SSI effective date or the SNAP application date.

5. Categorical Eligibility and Benefit Level

Once the worker determines a household's entitlement to SNAP benefits, the benefit level must be determined. Other eligibility factors described in this manual apply to categorically eligible households in determining the benefit amount. The agency must prorate benefits for the initial month based on the application date. The following additional criteria apply:

- a. Any one- or two-person household is entitled to at least **\$19**, regardless of net SNAP income, except when benefits for the initial month prorate to less than \$10. There will be no issuance in this instance.
- b. Any household of four or more will receive benefits if its net income entitles it to a benefit of \$1.00 or more on the appropriate allotment table, even if its net SNAP income is above the maximum for the household size.
- c. The agency must deny or terminate any categorically eligible household entitled to zero SNAP benefits. The notice must explain that the household will not receive benefits because the benefit amount is \$0 (zero).

## H. AUTHORIZED REPRESENTATIVES (7 CFR 273.2(n))

The head of the household, spouse or any other responsible member of the household may designate an authorized representative to act on behalf of the household in applying for SNAP benefits or in using SNAP benefits. In the event that the only adult living with a household is classified as a nonhousehold member (as defined in Part VI.C.), that individual may be the authorized representative for the minor household members. If households designate employers, growers, crew chiefs, etc. as authorized representatives for farm workers or when any single authorized representative has access to a large number of EBT cards, the worker should exercise caution to assure that the household freely requested the help of the authorized representative; the authorized representative is accurately stating the household's situation; and the authorized representative is properly using the SNAP benefits.

1. Making Application

When the head of the household or the spouse cannot file an application, another household member may apply or the household may designate an adult nonhousehold member as the authorized representative for that purpose. The head of the household or the spouse should prepare or review the application whenever possible, even though another household member or the authorized representative will actually be interviewed. Agency staff must inform the household that the household will be liable for any overissuance that results from erroneous information given by the authorized representative, except as specified in Part II.H.5 regarding participation by residents of drug addict/alcoholic treatment and rehabilitation centers.

Households may designate adults who are nonhousehold members as authorized representatives for certification purposes only under the following conditions:

- a. The head of the household, spouse, or another responsible member of the household may designate the authorized representative in writing; and,
- b. The authorized representative is an adult who is sufficiently aware of relevant household circumstances.

The worker may determine, on a case-by-case basis, the frequency with which the agency requests the written designation at a subsequent recertification. The worker may request the household's written designation at the recertification application as often as necessary.

Upon written authorization by the household, the representative must receive copies of all correspondence sent to the household itself. This will include all notices, e.g. *Notice of Action*, *Notice of Expiration*, etc. The agency must send the notices to the representative as long as the representative named on the authorization remains the household's authorized representative unless the written authorization specifies an ending date.

E. STUDENTS (7 CFR 273.5)

1. Definition of a Student

For the purposes of this chapter, the term student refers to a person who is enrolled at least halftime in an institution of higher education. The term student will refer to a person who is:

- a. is enrolled in a business, technical, trade, or vocational school that normally requires a high school diploma or equivalency certificate for enrollment; or,
- b. is enrolled in a regular curriculum at a college or university that offers degree programs, regardless of whether a high school diploma is required.

Once a student enrolls in an institution of higher education, the enrollment will continue through all normal periods of class attendance, vacation, and recess unless the student graduates, is suspended or expelled, drops out, or does not intend to register for the next normal school term (excluding summer school).

Enrollment begins on the first day of the school term of the institution of higher education.

2. Student Exemptions (7 CFR 273.5(b))

To be eligible for SNAP benefits, students, as identified above, must meet special criteria listed below. The resources of students who are not eligible are not considered in determining the eligibility or benefit level of other household members. See Part XI.G for evaluating the income of ineligible students.

An eligible student must meet at least one of the following criteria:

- a. Be 17 years of age or younger or, age 50 or older;
- b. Be mentally or physically unfit;
- c. Be employed for an average of 20 hours per week or 80 hours per month and be paid for such employment, including hours worked during school breaks that do not exceed one month;
- d. Be employed in a self-employed business for an average of 20 hours per week and receive weekly earnings at least equal to the federal minimum wage multiplied by 20 hours;
- e. Be **eligible to participate** in a state or federally financed work-study program during the regular school year;
- f. Be responsible for the care of a dependent household member under the age of six;
- g. Be responsible for the care of a dependent household member who is age six through age eleven where the local agency has determined that adequate child care is not available to enable the student to both attend class and satisfy the 20 hour per week work requirement or participate in work study;

- h. Be a full-time student and a single parent or caretaker who is responsible for the care of a dependent household member who is under age 12;
- i. Be receiving benefits from the TANF Program;
- j. Be participating in a work incentive program under Title IV of the Social Security Act, i.e. Virginia Initiative for Education and Work (VIEW) Program;
- k. Be participating in an on-the-job training program; or,
- l. Be assigned to or placed in an institution of higher education through:
  - 1) Programs under the Workforce Investment Act (WIA);
  - 2) **SNAP Employment and Training (SNAPET);**
  - 3) **Part of a career and technical education program as allowed by section 3 of the Carl D. Perkins Career and Technical Education Act of 2006 provided the program or course of study is:**
    - i. **Designed to be completed in four years or less; or**
    - ii. **Limited to remedial courses, literacy, adult education, or English as a second language.****Programs such as Fast Forward, Great Expectations or the Chancellors Merit programs operated through the Virginia Community College system will meet the career and technical education goals to enhance participants' employability. Students must verify enrollment in the program.**
  - 4) A program under Section 236 of the Trade Act; or,
  - 5) An employment and training program operated by state or local governments where one or more of the program's components are comparable to SNAPET components.
- m. **Have an expected family contribution of \$0 in the current academic year.**

Students paid or subsidized for in-class hours are not considered employed during that time so such class attendance would not make a student eligible under the minimum 20 hour per week work requirement. In addition, the exemption for on-the-job training is valid only for the period the person is being trained by the employer.

In evaluating a student's eligibility based on the work-study provision, note that the student must be approved for work-study at the time of the application for SNAP benefits. In addition, the work-study must be approved for the school term. This exemption will begin either the month the school term starts or the month the work-study is approved, whichever is later. The student's exemption may not continue beyond the month the school term ends or when it becomes known that a work-study assignment has been refused nor, is the exemption continued between terms when there is a break of a full month or more, unless the student is participating in work-study during the break.

In evaluating whether adequate childcare is not available for children who have reached the age of 6 but are not yet 12, the following guidelines have been developed. If:

- a. There is no licensed day care facility available; or
- b. The student cannot afford the day care; or
- c. There is no reliable or reasonable transportation to the day care provider, then it is probably likely that adequate child care is not available. Note, however, that even if these factors exist, adequate childcare is deemed available if the student has arranged for day care.

## F. CITIZENSHIP AND ELIGIBLE IMMIGRANTS

Only U.S. citizens and certain immigrants are eligible for SNAP benefits. Based on the household's written declaration on the application, the local agency must determine if each household member is a citizen or an immigrant. If a member is an immigrant, the local agency must determine if that member is an eligible immigrant. The sponsored immigrant policies described in Part XII.C must also be evaluated for eligible immigrants who have sponsors.

### 1. Eligibility of Immigrants

The following categories of immigrants are eligible for SNAP benefits:

- a. A refugee admitted under Section 207 of the Immigration and Nationality Act (INA). This category includes Afghan and Iraqi Special Immigrant visa holders.  
  
Individuals who are victims of human trafficking must also be evaluated as refugees. This designation may include the minor children, spouse, parents, or the unmarried minor siblings of the trafficking victim. These refugees must present a letter from the Office of Refugee Resettlement (ORR) or present a T visa that certifies or documents the status.
- b. An immigrant granted asylum under INA Section 208.
- c. An immigrant living in the U.S. and for whom deportation is being withheld under INA Section 243(h) or Section 241(b)(3).
- d. A Cuban or Haitian entrant, as defined in Section 501(e) of the Refugee Education Assistance Act of 1980. This designation includes participants in the Haitian Family Reunification Parole Program until their status is adjusted to lawful permanent residents. This designation may include refugee or parole status.
- e. An Amerasian immigrant as documented by the I-94 or other forms with notations of AM1, AM2, AM3, AM6, AM7, or AM8.
- f. Lawful permanent resident immigrants who have worked for 40 qualifying quarters of coverage under Title II of the Social Security Act are eligible for SNAP benefits.

Quarters of work for jobs not covered by Title II of the Social Security Act may be credited toward the qualifying minimum. For quarters after December 1996, no federal means-tested public benefits may be received to count as a qualifying quarter. For this provision, public benefits are TANF, SSI, Medicaid and SNAP benefits. This provision also includes Nutritional Assistance Program benefits from Puerto Rico, American Samoa, and the Northern Mariana Islands.

Quarters earned by the spouse of the permanent resident immigrant during the marriage, provided they are still married to each other, may be counted.

Quarters earned by parents, including step- or adoptive parents, of a permanent resident immigrant before the alien turns 18, may be counted toward the qualifying minimum for the immigrant, including any quarters earned prior to a child's birth.

- g. Native Americans entitled to cross the border of the United States into Canada or Mexico. This group comprises persons born in Canada to whom INA Section 289 applies or members of an Indian tribe, as defined in Section 4(e) of the Indian Self-Determination and Education Assistance Act.
- h. Highland Laotians and Hmong tribe members who are lawfully residing in the United States and who were part of a Highland Laotian or Hmong tribe between August 5, 1964 and May 7, 1975 when such tribes assisted U.S. personnel. The unmarried dependent children, spouse, and the surviving spouse who has not remarried of tribal members are also eligible.

Immigrants who originally had an exempt status (items a-e) but, who subsequently gain permanent resident status are eligible for SNAP indefinitely, before and after their status adjustment.

## 2. Conditional Eligibility of Immigrants

- a. The following categories of immigrants are eligible for SNAP benefits provided they also meet a qualified category in subsection b:
  - 1. An individual who has been in the U.S. as a qualified immigrant for five years or more from the date of entry in the country or from the date of a change in the immigration status. The five-year period may or may not be a consecutive period as temporary absences from the U.S. of less than six months will not affect the status if there is no intention of abandoning U.S. residency. Absences of periods of more than six months will be presumed to be an interruption unless the resident is able to show intent to resume U.S. residency. If there is an interruption in residency, the EW must consider the amount of time in the U.S. before and after the interruption.
  - 2. Veterans with honorable discharges for reasons not related to alien status and persons who are on active duty in the Armed Forces of the United States, other than training. To be an eligible veteran, one must have served a minimum of 24 months or the period for which the person was called to active duty. The term veteran includes military personnel who die during active duty served in the Philippine Commonwealth Army during World War II or as Philippine Scouts following the war.

The spouse or unmarried dependent child of a veteran or person on active duty is also eligible. The surviving spouse of a deceased veteran or of an individual who died while on active duty is also eligible. Eligibility of the surviving spouse is allowed provided the spouse has not remarried and that the marriage was for at least one year, or that they were married before the end of a 15-year period following the end of the period of military service in which the injury or disease was incurred or aggravated; or, that they were married for any period if a child was born of the marriage or was born before the marriage.

3. An individual who receives payments or assistance for blindness or disability, as defined in Definitions.
  4. An individual lawfully residing in the U.S. on August 22, 1996 and who was born on or before August 22, 1931.
  5. A child under 18 years of age lawfully residing in the U.S.
- b. A qualified immigrant is one who is:
1. a lawful permanent resident;
  2. a refugee admitted under INA Section 207;
  3. a person granted asylum admitted under INA Section 208;
  4. one whose deportation is being withheld under INA Section 243(h) or 241(b)(3);
  5. a parolee admitted under INA Section 212(d)(5) and the status is granted for at least one year;
  6. a conditional entrant admitted under INA Section 203 as in effect as of April 1, 1980;
  7. a battered spouse or child, as established by INS and the agencies providing benefits that a substantial connection exists between the battery and the need for benefits;
  8. a Cuban or Haitian entrant; or
  9. an Amerasian immigrant.

3. Verification of Immigrant Status

Verification of immigrant status is mandatory for initial applications and as new household members are added. While awaiting acceptable verification, except as noted below, the immigrant whose status is unverified is ineligible but the eligibility of any remaining household members must be determined. The income and resources of the immigrant

whose status is unverified is considered available in determining the eligibility of any remaining members, as described in Part XII.E. If verification of eligible status is later received, the agency must treat this as a reported change in household size.

Verification of the number of qualifying quarters an immigrant may directly or indirectly claim access for SNAP purposes will primarily be available from the Social Security Administration (SSA). Verification of the quarters of coverage may be accessed through the State Verification Exchange System (SVES). If verification is not obtained through SVES or, in some instances, from SSA directly, the household will be responsible for supplying proof of the amount of past wages to document the quarters earned. The household will also be responsible for providing proof if the SSA information is contested by the household or is incomplete.

In instances when the number of countable quarters verified by SSA is in dispute, an immigrant will be allowed to receive SNAP benefits for up to six months while working with SSA to resolve the issue.

As with other mandatory verifications, verification of immigration status may be postponed for households entitled to expedited service processing. However, the household member must claim to be of an eligible immigrant category before participation is allowed for the first month.

Documentation from the U.S. Citizenship and Immigration Services (USCIS) or other sources that the EW determines constitutes reasonable evidence of immigrant status is acceptable. If an immigrant does not have proof of the immigration status, the local agency must advise the household to contact USCIS to obtain verification. Form G-845S in Appendix II of this Part may be used to obtain information from USCIS when evidence presented is not clear or the applicant cannot provide information.

Documentation provided by the household **must** be submitted to USCIS for validation through the Systematic Alien Verification for Entitlement Programs (SAVE) system. The SAVE procedures are outlined in Appendix II of Part VII.

Immigration documentation includes, but is not limited to, the forms listed below.

- a. Resident Alien Card, Form I-551: This form, called the green card, is issued to immigrants admitted for permanent residence.

A foreign passport or USCIS documents, other than the I-551, will be acceptable proof of permanent residency if it has the endorsement: "Processed for I-551. Temporary Evidence of Lawful Admission for Permanent Residence. Valid until \_\_\_\_\_. Employment Authorized."

- b. Arrival - Departure Record, Form I-94: This form is issued by USCIS to persons who may or may not be eligible for SNAP benefits. Eligible aliens with I-94s must have certain INA Sections or terms listed on the forms. INA Sections 207, 208, or 243(h) or terms, such as refugee or asylum, on the I-94 reflect eligible alien status.
- c. Employment Authorization Document, Forms I-688B or I-766: These forms are issued to persons who may or may not be eligible for SNAP benefits

- Payments made under the Confederated Tribes of the Colville Reservation Grand Coulee Dam Settlement Act (P.L. 103-436).
  - I. Resources of SSI or TANF recipients. A separate evaluation of resources for SNAP purposes is not needed for a household in which all members are SSI or TANF recipients. In addition to the receipt of TANF income, the resource exclusion also applies to a household in which any member receives a TANF-funded service as defined as a PA Case in Definitions. The agency must evaluate the resources of household members who do not receive SSI or TANF.
  - m. Amounts paid to individuals under the Radiation Exposure Compensation Act for injuries or death resulting from exposure to radiation from nuclear testing and uranium mining in Arizona, Nevada and Utah (P.L. 101-426).
  - n. Payments to individuals because of their status as victims of Nazi persecution (P.L. 103-286).
  - o. Payments through the Department of Veteran Affairs to children of Vietnam veterans who are born with congenital spina bifida and payments to children of female Vietnam veterans who are born with certain birth defects (P.L. 104-204 and P.L. 106-419).
  - p. Money in an Achieving a Better Life Experience (ABLE) account. ABLE accounts are set up to provide funding for disability-related expenses for individuals determined to be disabled before age 26.
  - q. **Economic Stimulus Payments to households or individuals made in response to Covid-19 pandemic for 12 months after receipt. Federal pandemic unemployment payments are also excluded the month received and the following nine months.**
14. HUD retroactive tax and utility cost subsidy payments issued pursuant to the settlement of Underwood v. Harris, for the month in which payment was received and the following month.
  15. Resources under a lien.
  16. Money in individual development accounts (IDA). These exempt funds may be in the form of a trust, trust account or a custodial account. The owner of the account must be a current or former TANF recipient or one who is ineligible for TANF as long as the person's income is less than 200 percent of the federal poverty guidelines. Funds in the account are exempt as long as they are not withdrawn. The account will remain exempt if the household withdraws the funds and uses the money to pursue post-secondary education, to purchase a house, to start a business or to meet an emergency need approved by the sponsoring agency. In Virginia, the accounts are called the Virginia Individual Development Account (VIDA) and Assets for Independence Account (AFIA).
  17. Money in an escrow account established by the Family Self-Sufficiency Program through the U.S. Department of Housing and Urban Development.
  18. Money in educational accounts. These accounts include Coverdell Savings accounts and qualified tuition accounts (Internal Revenue Codes 529 and 530).

E. HANDLING OF EXEMPT FUNDS (7 CFR 273.8(f))

1. Liquid assets that are exempt from consideration, as outlined in Chapter D, that are kept in a separate and identifiable account from nonexempt funds remain exempt as a resource for an unlimited time.
2. Exempt funds kept in an account along with other nonexempt funds remain exempt for six months from the date the funds are commingled. After six months from the date the funds are commingled, all funds in the commingled account are countable as a resource.

Example

A two-person household has a savings account with a balance of \$900. The household receives a payment of \$1,200 from the Individual and Family Grant Program (IFG) in January. If the household places the IFG funds in a separate and identifiable account, the IFG funds will remain exempt indefinitely. If the household deposits these funds in the savings account containing \$900, however, the IFG funds will remain exempt for only six months from the date they are commingled with the nonexempt funds.

If the funds are commingled in January, the total amount in the account as of July will count towards the resource level.

3. Funds exempted under Part IX.D.11 will retain the exemption as a resource for the full period over which they have been prorated as income, even if commingled with nonexempt funds.

Example

A self-employed farmer receives a \$1,000 payment that is prorated as income over 10 months. This money is deposited in the household's regular checking account with other nonexempt funds. Any portion of the payment that remains in the checking account will be exempt as a resource for the full 10-month period over which the income is prorated. After the 10-month period, any part of the payment remaining in the account with the nonexempt funds will count a resource.

4. Where a resource is exempt because of its use by or for a household member, the exemption will also apply when the resource is used by or for a disqualified person whose resources count as part of the household's resources. This could include the work-related equipment essential to the employment of an ineligible alien household member or disqualified person, as allowed under Part IX.D.4, or burial plots for ineligible alien or disqualified household members, as allowed under Part IX.D.5.

F. TRANSFER OF RESOURCES (7 CFR 273.8(i))

At the time of application, households must provide information about any resources transferred during the three-month period immediately preceding the date of application. The EW must

- Payments, except for per capita payments over \$2000, to the Seminole Nation of Oklahoma, the Seminole Tribe of Florida, the Miccosukee Tribe of Florida, and the independent Seminole Tribe of Florida (P.L. 101-277).
  - Payments made under the Confederated Tribes of the Colville Reservation Grand Coulee Dam Settlement Act (P.L. 103-436).
- n. Payments under the Radiation Exposure Compensation Act (P.L. 101-426).
- o. Contributions of an SSI recipient into a Plan for Achieving Self Support (PASS) account (PL 102-237).
- p. Payments for meals for children or adults on whose behalf the payment is made through the Child and Adult Care Food Program, Section 12(a) of the School Lunch Act.
- q. Payments to individuals because of their status as victims of Nazi persecution (P.L. 103-286).
- r. Payments through the Department of Veteran Affairs to children of Vietnam veterans who are born with congenital spina bifida and payments to children of female Vietnam veterans who are born with certain birth defects (P.L. 104-204 and P.L. 106-419).
- s. Money contributed to Achieving a Better Life Experience (ABLE) accounts or money distributed from such accounts for disability-related expenses are excluded as income. ABLE accounts are set up for persons determined to be disabled before age 26.
12. Government Subsidies for Housing and Energy/Utility Payments
- Payments or allowances made for housing, energy assistance or utility payments under any federal, state or local government program will not count. This includes payments received from the Low-Income Home Energy Assistance Program (Virginia Energy Assistance Program), HUD and FmHA utility payments.
13. Shared Shelter Arrangements
- In some situations, SNAP households may share shelter expenses with others. Money may exchange hands between the units to facilitate bill paying. This exchange of money for the purposes of bill paying in a shared shelter arrangement is not considered income to the person receiving it. Each household is entitled to its share of the shelter expenses.
- Allow the household to describe/define the arrangements. Allow each household to claim its portion of the shelter costs if the arrangement is for the purpose of splitting living costs as opposed to a rental arrangement where one household elects to charge another household for shelter costs.

Note: This policy does not replace the roomer/boarder and rental property situations.

01/21

VOLUME V, PART XI, PAGE 18

14. Funds Deposited in an Individual Development Account (IDA) or HUD Escrow Account

Money deposited in an IDA on behalf of a household member will not count as income nor money deposited in an escrow account established by HUD.

15. VIEW Supportive Services Payments

Payments made directly or indirectly to household members for supportive services through VIEW will not count as income. This exclusion does not include VIEW Transitional Payments.

16. Educational Benefits

Money received for educational purposes. These payments include, among others, scholarships, grants, educational loans, veteran's educational benefits, and work-study.

17. Legally Obligated Child Support Payments

Child support payments paid by a household member to an individual or agency outside the household are allowable as an income exclusion. Payments to a third party on behalf of a child, including payments to obtain health insurance for the child, in accordance with the support order, will also be included in the income exclusion. An income exclusion for amounts paid toward arrearages are allowable. Administrative fees charged by an employer to collect support through wages are allowable.

The legal obligation to pay child support, the amount of support obligated, and the amount of support actually paid must be verified before the income exclusion is allowed. The allowable income exclusion may not exceed the monthly obligated amount unless the amount paid includes an amount in arrears.

The child support exclusion may not include alimony or spousal support payments made to or for a nonhousehold member.

18. **Economic Stimulus Payments to households or individuals made in response to Covid-19 pandemic excluded as income in the month received. Federal pandemic unemployment payments are also excluded as income in the month received.**

## G. INCOME OF EXCLUDED HOUSEHOLD MEMBERS (7 CFR 273.9(b)(3); 273.11(d))

Individual household members may be disqualified from receiving SNAP benefits or may be ineligible to participate. See Part VI.C for a discussion of nonhousehold members. See Part XII.E for a discussion of how to handle the income of a disqualified household member to the remaining members.

For excluded household members who are ineligible rather than disqualified, such as ineligible students, the income of the ineligible member is not considered available to the household. Any cash payments from the ineligible member to the household must be considered income under the normal income standards described in this manual. If the household shares deductible expenses with the ineligible member, only the amount actually paid or contributed by the eligible members is

PART XXIII

BENEFIT ALLOTMENTS

CHAPTER

SUBJECT

PAGES

A. CALCULATING BENEFIT ALLOTMENTS

1

B. BENEFIT ALLOTMENT TABLES

1-51

A. CALCULATING BENEFIT ALLOTMENTS

The tables on the following pages show the appropriate benefits for household sizes 1 through 10.

For household sizes 1 and 2, **\$19** is the minimum allotment for all eligible households, including PA categorically eligible households. The maximum monthly net income does not apply to categorically eligible households however.

For household sizes 3 through 10, the allotment tables reflect the maximum benefit allotment to the **\$1** minimum allotment. **NOTE: ONLY PA CATEGORICALLY ELIGIBLE HOUSEHOLDS ARE ELIGIBLE FOR ALLOTMENTS WHERE THE HOUSEHOLD'S NET INCOME EXCEEDS THE NET INCOME MAXIMUM.** For example, for a 5-person household, the maximum net income is \$2,557. The allotment offered at that level of income is **\$161**. The rest of the allotment table, from the net income of \$2,558 through **\$3,093**, the last income figure, for which an allotment is available, applies to PA categorically eligible households only.

To calculate issuances to households of more than ten persons, use the following formula:

1. Maximum Benefit Allotment. If there are more than ten household members, add **\$153** to the monthly maximum benefit allotment.
2. Maximum Monthly Net Income. If there are more than ten household members, add **\$374** to the monthly maximum net income. **NOTE:** Maximum monthly net income limits do not apply to PA categorically eligible households.

## BASIS OF BENEFIT ISSUANCE
